CONTENTS FOR
FLUID MECHANICS–Soviet Research
Volume 17, Nos. 1–6, 1988

Number 1

1 Investigation of Transonic and Supersonic Jets and Their Interaction with Gases, Liquids and Molten Metal
Ye.A. Kapustin

14 Resonant Modes in Impingement of a Subsonic Turbulent Jet Onto a Baffle
Ye.V. Vlasov, A.S. Ginevskiy, R.K. Karavosov, and L.N. Ukhanova

25 Coherent Structures in a Supersonic Turbulent Jet Produced by Intrinsic Oscillations of the Jet
N.A. Zheltukhin and N.M. Terekhova

35 Computer Simulation of Turbulent Jets and Wakes
S.M. Belotserkovskiy, A.V. Dvorak, A.I. Zhelannikov, and V.N. Kotovskiy

44 Structure of Turbulence in a Two-Phase Jet
L.V. Gavin and V.A. Naumov

54 Drag and Heat and Mass Exchange in a Turbulent Boundary Layer with a Pressure Gradient
V.M. Fomichev

65 Structure of Turbulence in Flows with Surfactant and Polymeric Additives
I.L. Povkh, A.V. Stupin, and P.V. Aslanov

80 Modes of Turbulent Flow of Viscoelastic Fluids
V.N. Kalashnikov

93 Axisymmetric Turbulent Compressible Jets in Subsonic Wakes
V.Ye. Kozlov, A.N. Sekundov, and I.P. Smirnova

102 Turbulent Flow in Two-Phase, Gas-Solids Systems
Yu.N. Savchenko

140 Power Consumption of Disk-Type Sprayers Equipped with Variable-Section Peripheral Curvilinear Channels
V.N. Velichko

Number 2

1 The Turbulent Boundary Layer in the Case of a Longitudinal Pressure Gradient and Suction at Different Angles to the Wall
Ye.V. Dunayeva, A.A. Klimov, V.I. Kondrat'yev and V.S. Senterov

FLUID MECHANICS–Soviet Research
Volume 17, Nos. 1–6, 1988

Number 1

1 Investigation of Transonic and Supersonic Jets and Their Interaction with Gases, Liquids and Molten Metal
Ye.A. Kapustin

14 Resonant Modes in Impingement of a Subsonic Turbulent Jet Onto a Baffle
Ye.V. Vlasov, A.S. Ginevskiy, R.K. Karavosov, and L.N. Ukhanova

25 Coherent Structures in a Supersonic Turbulent Jet Produced by Intrinsic Oscillations of the Jet
N.A. Zheltukhin and N.M. Terekhova

35 Computer Simulation of Turbulent Jets and Wakes
S.M. Belotserkovskiy, A.V. Dvorak, A.I. Zhelannikov, and V.N. Kotovskiy

44 Structure of Turbulence in a Two-Phase Jet
L.V. Gavin and V.A. Naumov

54 Drag and Heat and Mass Exchange in a Turbulent Boundary Layer with a Pressure Gradient
V.M. Fomichev

65 Structure of Turbulence in Flows with Surfactant and Polymeric Additives
I.L. Povkh, A.V. Stupin, and P.V. Aslanov

80 Modes of Turbulent Flow of Viscoelastic Fluids
V.N. Kalashnikov

93 Axisymmetric Turbulent Compressible Jets in Subsonic Wakes
V.Ye. Kozlov, A.N. Sekundov, and I.P. Smirnova

102 Turbulent Flow in Two-Phase, Gas-Solids Systems
Yu.N. Savchenko

140 Power Consumption of Disk-Type Sprayers Equipped with Variable-Section Peripheral Curvilinear Channels
V.N. Velichko

Number 2

1 The Turbulent Boundary Layer in the Case of a Longitudinal Pressure Gradient and Suction at Different Angles to the Wall
Ye.V. Dunayeva, A.A. Klimov, V.I. Kondrat'yev and V.S. Senterov

8 Heat Transfer and Turbulent Flow of Dilute Solutions of High-Molecular-Weight Polymers
L.F. Kozlov
23 Effect of Temperature and Duration of Circulation of the Fluid on the Skin Friction-Reducing Ability of Polymeric Additives
V.A. Sirotenko, A.I. Tamarin, L.I. Levental' and V.L. Yasnogorodskiy
27 An Approximate Method for Determining the Parameters of Fluctuating Motion of Particles in a Turbulent, Particle-Laden Gas Flow
A.A. Shrayber
35 Determination of the Limit of Drift of Mist from a Spray-Cooling Pond of a Thermal Power Plant
E.G. Bratuta and T.I. Yaroshenko
41 Efficiency of Droplet Separation in Louver-Type Demisters
L.S. Sterman and V.A. Devyanin
46 Formulation of Problems of Incompressible Flow Over Permeable Bodies
Kh.A. Rakhmatulin and S.V. Guvernyuk
72 Models of Shape Development in Parachutes on the Basis of the Theory of Local Radii of Curvature
O.V. Rysev
88 Testing of Permeable Aircraft Control Surfaces: Aerodynamic Characteristics of Flap-Simulating Permeable Plates Attached to a Panel
S.A. Feshchenko
106 Effect of Waves on Composite, Axially Symmetrical Obstacles
V.V. Yakovlev and A.V. Pyatetskiy
113 Scattering of Surface Gravity Waves by an Elastic Plate of Finite Length
I.T. Selezov and S.V. Korsunskiy
119 Internal Waves from a Powered Source Traveling Under a Layer of a Stratified Liquid
N.I. Arshanaya and A.G. Stetsenko
128 Oscillations and Drift of a Vertical Cylinder Floating in Waves
G.F. Zolotenko
135 Dynamics of the Alternation of the Principal Modes of Heat Transfer on a Billet in the Course of Its Quench Cooling
N.P. Timchenko, V.I. Fedorov and N.I. Kobasko
140 Extension of the Preston Method to Commercially Rough Walls
B.V. Serebro

Number 3

1 Experimental Study of the Hydrodynamics of Gas-Solids Flows in Transient (Accelerating) Motion of the Solid Particles
V.V. Perevezentsev
7 The Path of a Particle in Curvilinear Flow
A.A. Petrov

12 High Velocity Impact of a Convex Water Droplet onto a Rigid Baffle
V.S. Surov and S.G. Ageyev
18 The Developed Vortex Funnel in an Ideal Fluid
A.S. Dudko
24 A Model of the Dynamics of Partially Mixed Patches in a Stably Stratified Fluid
I.Yu. Avdeyeva and V.S. Maderich
31 Calculation of Coefficients of Heat and Mass Transfer in an Unstably Stratified Air Boundary Layer over a Water Surface
A.G. Yurov
38 Oblique Impingement of a Spherical Liquid Droplet on a Solid
I.P. Faddeyev, S.L. Khaviya and B.Yu. Mosenzhnik
45 The Variation in Total Pressure Along the Vertical Axis of a Partially Submerged Aerated Jet
S.V. Filatov
50 Pressure Fluctuations in Flow over Permeable Plates That Simulate Aircraft Control Surfaces and Are Attached to Aircraft-Simulating Panels
A.N. Levushkin, A.A. Matveyev, S.A. Feshchenko and A.I. Shvets
59 Drag and Lift Coefficients of Perforated Disks and Plates Placed at an Angle of Attack to the Direction of the Free Stream
A.F. Mosin, M.P. Falunin and S.A. Feshchenko
68 Application of Projection Methods to Wing Theory
A.V. Voyevodin and G.G. Sudakov
80 Interaction Between Perturbations in the Boundary Layer in the Nonlinear Transition Stages
V.V. Babenko, V.P. Ivanov and N.F. Yurchenko
90 The Adiabat for a Permeable Wall
S.V. Guvernyuk
102 Motion of a Thin Film on a Rotating Surface
Yu.I. Daskal
108 Rotational Flow in a Vessel with External Feed
V.G. Glushchenko and A.I. Kravtseva
112 Comparative Data on Turbulent Fluctuations Generated in the Flow of a Single-Phase Fluid in Smooth and Helically Twisted Pipes
Yu.M. Brodov, Ye.M. Chizhevskaya and P.G. Men'
117 The Maximum Liquid Velocity in Pressureless flow in Vertical Standpipes
A.D. Al'tshul', V.I. Kalitsun and M.P. Kovalev
123 Time Variation in the Depth of Local Scour Downsteam of Dam
K.S. Popova and B.Ye. Vedeneyev
135 Energetics of Breakers in the Surf Zone
Ye.I. Koshel'nik and B.Ye. Vedeneyev

Number 4

1 Conditions for Onset of Cavitation
E.L. Amromin

9 Applicability of the Inviscid-Gas Model to Supersonic Flow over High Aspect Ratio Bodies
V.V. Kovalenko, A.I. Kravchenko, V.P. Starukhin and S.A. Shchennikov
18 Experimental Study of Vortices Shed from Wing Gloves
V.A. Pesetskiy
25 Static Hysteresis of Aerodynamic Characteristics of a Rectangular Wing
E.A. Karavayev, Yu.A. Prudnikov and Ye.A. Chasovnikov
31 An Experimental Study of Gas Flow Near the Perforated Walls of a Transonic Wind Tunnel
A.I. Ivanov
38 Application of Adaptive Grids to Evaluation of Two-Dimensional, Nonequilibrium Ideal-Gas Flows
V.L. Men'shikova
47 Real-Time Determination of the Limit of Thermohydraulic Stability of Vapor-Generating Channels
V.T. Rogovskiy
54 A Method for Evaluating the Arbitrary (Transient Vortical) Flow of Ideal Incompressible Fluids over Bodies
M.A. Golovkin
61 A Mathematical Model of Turbulent Flow of Power-Law, Purely-Viscous Non-Newtonian Fluids in Smooth and Rough Pipes
L.S. Artyushkov and Ya.S. Khodorkovskiy
68 Effect of Model Vibration on Transition from Laminar to Turbulent Boundary Layer Flow
A.A. Pilipenko and G.K. Shapovalov
77 Weakly-Linear Thermocapillary Convection in a Two-Layer Liquid System at High Prandtl Numbers
E.I. Berezovskiy, Yu.A. Buyevich and V.M. Kitaytsev
86 Dynamics of the Initial Stage of Collapse of a Mixing Region in a Stratified Liquid
V.N. Il'chenko and V.I. Nikishov
93 Heat Transfer in Valves (1. Experimental Technique and Preliminary Results)
A.A. Zukauskas, A.-R.J. Jonaitis and G.B. Zdanavicius
106 Nonscouring (Safe) Velocity
M.A. Dement'yev
112 Effect of Regular Macroroughness Projections on the Maximum Nonscouring (Safe) Shear and Flow Velocity in the Case of Noncohesive Soils
V.P. Troitskiy
120 Modeling of Wave Erosion of Sandy Beaches
D.D. Lappo and Ye.I. Koshel'nik
131 Investigation of Force Effects of Long Waves on Vertical Hydraulic Structures
V.Kh. Davletshin
140 Loads Exerted by High Surge Waves on Water-Retaining Structures
V.V. Baronin

Number 5

1 Mechanism of Lateral Mixing in Fluidized Beds
V.A. Borodulya, Yu.G. Yepanov, Yu.S. Teplitskiy and V.I. Ivanyutenko

6 Flow Over Cones with Large Cone Angles
I.I. Amarantova, V.G. Bukovshin and V.I. Shustov

12 Flow Over a Straight Wing Under Steady and Quasisteady External Conditions
M.A. Golovkin, V.P. Gorban', Ye.V. Simuseva and A.N. Stratonovich

26 Heat Transfer in an Annular Recess on a Sharp Cone Operating in Hypersonic Flow With and Without Injection of Gas
V.Ya. Borovoy, S.K. Marinichenko and A.S. Skuratov

34 An Experimental Study of Replacement of Straight Jump by an Oblique One (and Vice Versa) in a Constriction (in Plan) of a Horizontal, Open Rectangular Channel
A.M. Shvaynshteyn and T.V. Fedulova

42 Kinematics of Free-Surface Turbulent Flows
G.P. Skrebkov

51 Attractor Dimension Reduction in Forced Oscillations of a Barotropic Triplet
D.M. Sonechkin

60 Estimation of the Number of Degrees of Freedom of Large-Scale Atmospheric Processes
D.M. Sonechkin

72 Hydrodynamic Stability of the Low-Viscosity, Weakly Nonlinear Model of the Atmosphere on the f and β Planes
V.P. Samrov

90 Wave-Number Dependence of the Qualitative Dynamics of a Simple Model of the Interaction between Baroclinic Waves and Zonal Flow
N.Ye. Zimin

108 Effect of Large-Scale Orography in Excitation and Maintenance of Long-Period Oscillations in a Simple Quasigeostrophic Model
N.Ye. Zimin

130 Dynamic Manifestations of Resonant Excitation of Long-Period Fluctuations in a Model with Seasonal Thermal Forcing
N.M. Datsenko and N.Ye. Zimin

Number 6

1 Visualization of Transition from Laminar to Turbulent Boundary-Layer Flow on a Cone in Supersonic Free Stream
V.Yu. Zanin and S.G. Shevel'kov

5 Behavior of a Turbulent Boundary Layer on a Cylinder in Longitudinal Flow in the Presence of a Transverse Baffle
I.A. Belov and V.M. Litvinov

16 Aerodynamic Heating of Wavy Surfaces in Supersonic Turbulent Boundary-Layer Flow

V.V. Bogolepov, V.N. Brazhko, L.V. Dozorova, G.I. Maykapar and V.Ya. Neyland

25 Spatial-Type Instability Waves in the Boundary Layer at High Reynolds Numbers
S.V. Manuylovich

33 Flow in a Local Supersonic Zone in Generally Transonic Flow Over a Wing
V.A. Pan'zhenskiy and A.S. Petrov

43 The Interaction and Separation of the Transcritical Boundary Layer
V.Ya. Neyland

63 Improvement of Evaluation of Three-Dimensional Boundary Layers
Yu.Ya. Gerasimov

73 The Effect of Concentrated Injection (Blowing) on the Coefficient of Local Heat Transfer to the Surface of a Sphere at Low Reynolds Numbers
A.V. Botin

83 Controlled-Circulation Flow over a Cylinder in Sideslip
V.A. Vlasov, Yu.G. Zhulev and A.G. Nalivayko

87 Investigation of the Operation of an Intermittent Supersonic Blowdown and Suction Wind Tunnel
V.Ya. Bezmenov

99 Certain Features of Wall Flow in the Region of Wing Fuselage Junction
V.I. Kornilov and A.M. Kharitonov

109 Numerical and Experimental Investigation of the Entry of a Flat Plate into Water
D.A. Teselkin and A.Yu. Tormakhov

121 Experimental Study of the Effectiveness of Solid Sound-Absorbing Structures in Aircraft-Engine Flowpaths
A.F. Sobolev

133 Cavitation Nuclei and Their Effect on the Erosive Ability of an Attached Cavity
Yu.A. Grivnin
